PERFORMAX
INSPECTION PROGRAM

Getting a PerforMax inspection is a great way to make sure your equipment is ready - before you get to work. PerforMax helps you catch problems before you hit the field, so you avoid downtime and save money.

● **Parts Drop-Off Locations**

- ✓ Convenient parts drop-off locations.
- ✓ We deliver to these spots regularly.
- ✓ Saving you time and expense.
- ✓ Call us with your next order.

Getting a **John Deere inspection** is a great way to make sure your equipment is ready – before you get to work. The John Deere Inspection Program helps you catch problems before you hit the field, so you avoid downtime and save money.

- Inspections are performed by factory trained technicians who have the proper specifications and tools to insure the job is done right.
- Equipment owners will be given a copy of the completed inspection.
- No repair work is started until the Customer gives their approval.
- Parts & labor required for recommended repairs are at an additional cost.

Inspect now, pay later.

Inspections are available year round, but off-season inspections are eligible for No Payments, No Interest Financing for 90 days or more with your Farm Plan™ account. Minimum purchase of \$300.
